<b>Beschreibung</b>	<p>Let's experience English in a different and new environment - and let's focus on actually using English for conversational purposes. Maybe you are afraid to speak English, concerned to make mistakes and be judged for them? These are often problems when learning a language in school without a real reason to actually use it outside of the classroom. In this class, we want you to experience English as a language for communication.</p> <p>Therefore, it offers various options to practise conversational as well as written skills in English - although the focus will clearly be put on oral skills. Besides that, there will be room to repeat certain grammatical structures if needed.</p> <p>In order to do so, we may...</p> <ul style="list-style-type: none"> <li>... get input from authentic media such as different texts, movies, series,</li> <li style="padding-left: 20px;">music, podcasts,</li> <li>... have discussions or debates on current political matters,</li> <li>... write your own short story and discuss it in class,</li> <li>... watch English films and act out selected scenes,</li> <li>... find your own ending of a film,</li> <li>... read or act out short scenes/ a short play,</li> <li>... listen to / translate the lyrics of your favourite song...,</li> <li>... watch an English play if possible...,</li> <li>... give a presentation on topics of interest,</li> </ul> <p>Since we want you to participate actively, you will have a say in many decisions and can consequently influence the direction of the class and have room for your own ideas and creativity.</p> <p>Hopefully, you will find out that often it does not really matter if your grammar is perfect but rather if you can communicate your ideas.</p>
<b>Leistungsbewertung</b>	<p>regular attendance, willingness to participate in the activities, individual improvement in the practiced English skills, one oral or written presentation or exam or a created product.</p> <p><b>In your report card you will find the German abbreviations "tg, mEtg, mgEtg" depending on your performance!</b></p>
<b>Bemerkungen</b>	<p><b>Be ready to converse in English exclusively! That should not intimidate you, though, since you will learn how to work around vocab and grammar issues.</b></p> <p><b>Be prepared to work in teams!</b></p>
